Pondok Gede, Bekasi, Indonesia

Self-motivated Back-End Web Developer with experience in Rest API, third-party integrations, and databases. I have completed several projects that are available on my GitHub and am proficient in JavaScript, Node.JS, Express, REST API, and MySQL. Additionally, I have skills in IT support, including troubleshooting, problem-solving, and maintenance. I am a hardworking and organized job seeker, eager to secure an entry-level Back-End Web Development position to further my career aspirations.
